

Coastal Ecology of Kyuquot Sound

Join a Marine Biologist to explore the coastal ecosystems of Kyuquot Sound

Discover secluded beaches and lush rainforests while learning about their amazing diversity of life with a biologist from Bamfield Marine Sciences Centre. Spend an afternoon kayaking to view playful sea otters and other wildlife. Enjoy daily outings around Spring Island from our base at West Coast Expedition's comfortable wilderness camp.

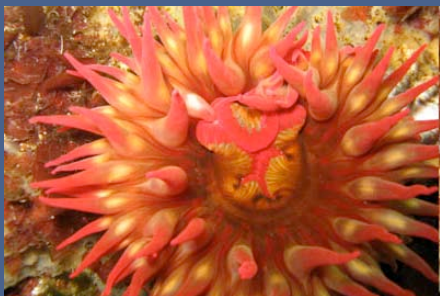

July 27-29: \$749 per person includes accommodation (double occupancy), all meals, activities (including half day kayaking) for 1 full days and two half days, as well as water taxi transport from Fair Harbour.

July 29- Aug 1: \$979 per person includes accommodation (double occupancy), all meals, activities (including half day kayaking) for 2 full days and two half days, as well as water taxi transport from Fair Harbour.

Discounts are available for children and triple or quad occupancy options. A deposit of \$300 is required to secure a space.
