

The Bamfield Marine Sciences Centre presents

Field Skills for Undergraduates

February 14-17, 2012

Looking to work as a summer field assistant?

Boost your resume and gain experience with practical field skills in a remote wilderness setting.

Marine field skills:

- Invertebrate and seaweed species identification
- Beach seining
- Quantitative biodiversity sampling

Terrestrial field skills:

- Forest survey techniques
- Stream benthic macroinvertebrate sampling
- Bird identification and survey techniques

For more details, or to register, contact:
public_ed@bms.bc.ca or call 250-728-3301 ext. 226
Member university students price: \$255
Non-member university students price: \$416
Cost includes: all programming, meals and accommodation for 2 full days and 2 half days.
Transportation is the responsibility of participants.

The not-so-fine print:

- Minimum enrollment is 12, maximum 24.
- Deposit of 50% of final cost is required by January 15th, 2012 to secure your space.
